

# I LOVE BIG TRAINS

A TM PRODUCTION

## Part 1

Journey on Europe's high-speed trains to France, Spain, and Portugal. Experience breadth-taking scenery, ornate stations, and exciting train action. Next stop – the Illinois Railway Museum, learn how a steam engine works, and see legends like the Shay and Burlington E8 diesel in action. We also visit the Indiana Beltline Railroad, discover how a “hump” yard works, and see a historic operating turntable.

## Part 2

See the Union Pacific's 3985 Challenger – the last operating articulated steam locomotive in the world – comes roaring through the cities and farmlands of the Midwest. Ever wonder what it's like to be a train engineer? Find out when we hitch a ride in the cab of the South Shore Line's GP-38 (and we'll also ride in the caboose). Meet renowned railroad artist Mitch Markovitz as he creates the cover for this DVD. Plus learn about railroad signals.

## Part 3

Take a ride on the South Shore Line, the last operating electric interurban railroad in America. Check in with steam locomotive expert Doyle McCormick, as he talks about steam engines and restores the legendary 4449 Southern Pacific Daylight. Next, we travel to Alaska, where both the scenery and train rides are spectacular. All aboard for railroad excitement both children and grown-ups will enjoy.

# TINPLATE LEGENDS IN ACTION – PART 1

## A TM PRODUCTION

The toy trains made before WWII have a certain charm that is irresistible. “I love the bright colors, rattle-trap sounds, and pure whimsy,” says collector John Potter. “And they set the stage for all the great Postwar trains.”

This DVD features all-new HD and wide-screen footage of toy train legends in action – the Olympian, Mayflower, Blue Comet, State Set, National Limited, and many more.

The spectacular layouts include John Pisano’s Clarke Dunham-designed layout that combines Standard and O gauge trains running in front of sensational backdrops that have become a trademark of a Dunham-designed layout.

Tom Snyder’s hi-rail Standard Gauge layout has found a new home at the New Jersey Hi-Railers club. We cover the move from California and tell you the fascinating story.

Paul Carlisle’s extremely rare One Gauge layout features European trains – Bing, Carrette, Marklin, Plank, and more – all made between 1895 and 1935.

“These great Prewar trains give you a sense of history you don’t get with the newer trains,” says collector Rogers Piercy. “They were made when American was the leading manufacturing country in the world. When workers took pride in their work and these trains are testimony to that grand time in America.”

**Run time: 50 minutes**

# TINPLATE LEGENDS IN ACTION – PART 2

## A TM PRODUCTION

If you love colorful, classic tinplate trains in action on elaborate layouts – this DVD is for you. We visit Chuck Brasher in Grass Valley, CA to get an update on his fine layout and collection. Chuck is adamant about his trains being original, and he has some of the finest examples of tinplate trains and accessories on the planet – the State Set, Blue Comet, President Specials, the Ives Circus Set, Lionel Airplane (flying), Lionel Race Cars, and many more.

Dave Corbett started collecting Lionel Postwar – then fell in love with American Flyer Wide (Standard) Gauge. Dave built a fabulous layout, and he is not shy about explaining why he loves American Flyer Wide Gauge.

Then to Reno to see Jim McCarthy's layout featuring The Brute, National Limited, Olympian, Black Diamond, and other reproductions of Standard Gauge classics.

We also show, from start to finish, the building of TM's 60X20 foot Standard Gauge layout. Prepare to be amazed – you've never seen a layout like this one. Plus another highly entertaining and informative *Talking Tinplate* segment with Ron and John.

**Bonus** – Slide Show of Standard Gauge Classics.

**Run time: 70 minutes**

**List Price: \$12.99**

## **BUILDING AN O GAUGE LAYOUT**

### **BEGINNER & ADVANCED**

#### **A TM PRODUCTION**

Building a layout is fun, creative, and you will learn the basics of carpentry, electricity, and making scenery. And you can get your entire family involved (and away from their smart phones), because there's something to do for everyone.

Lionel's FasTrack has emerged as the track of choice for a new generation of layout builders. FasTrack looks realistic, easily snaps together, and is flexible enough for any track plan – whether it's simple figure 8 or an intricate design involving switches, multiple train operation, and lots of accessories. This DVD offers step-by-step, easy-to-follow instructions. Whether you're a beginner or a pro, you need this DVD to bring your layout-building skills into the 21<sup>st</sup> Century.

- Building the table
